Subject: Crandall Cyn Meeting: November 4th Price Field Office, 10:00 AM
Place: OGMCOAL
Attachments: Crandall Agenda Nov_4_2009.doc

Hello,

Wanted to send a quick reminder of the Crandall Canyon meeting at the DNR's Price Field Office this Wednesday at 10:00 AM. I've attached an agenda (albeit a bare bones one). The purpose of the meeting is essentially to discuss what form the final reclamation of the site will take given the mine water discharge and associated issues. With that in mind, please bring any final reclamation ideas or suggestions to the meeting and we'll throw them out for discussion. Things to think about would be active vs. passive water treatment options, safety considerations, environmental considerations etc. See you Wednesday.

Thanks,
Steve
